DNR CAPITAL AUSTRALIAN EQUITIES HIGH CONVICTION FUND (ARSN: 604 465 849, APIR CODE PIM0028AU)

PDS UPDATE AND INVESTOR NOTIFICATION - UPDATED ESTIMATED ONGOING ANNUAL FEES AND COSTS REFLECTING THE FINANCIAL YEAR ENDED 30 JUNE 2024

The Trust Company (RE Services) Limited, ABN 45 003 278 831, AFSL 235 150 (**Responsible Entity**) is the responsible entity for the DNR Capital Australian Equities High Conviction Fund – Retail (R) class (Fund). DNR Capital Pty Ltd, ABN 72 099 071 637, AFSL 301 658 (**Investment Manager**) is appointed as the investment manager for the Fund.

This notice (**Notice**) provides important information about the Fund and is issued by the Responsible Entity to notify you of updated estimated ongoing annual fees and costs in the product disclosure statement dated 19 June 2024 (**PDS**).

This Notice should be read in conjunction with the PDS and the Fund's Reference Guide dated 19 June 2024 (**Reference Guide**), any notices updating the PDS and the Reference Guide, and any information incorporated by reference. A copy of this Notice, the PDS, the Reference Guide and other information is available online at www.dnrcapital.com.au/managed-funds or free of charge, upon request by contacting the Investment Manager or Responsible Entity.

This Notice provides estimated ongoing annual fees and costs based on updated estimated management fees and costs and updated estimated transaction costs reflecting the amounts incurred in the previous financial year ending 2024. References to Retail Units or Class are references to the Retail (R) class of units offered under the PDS.

The estimated management fees and costs and estimated transaction costs have remained the same for the financial year ending 2024.

This updated information is set out in Appendix 1 of this Notice and updates information in the following sections :

1. Fees and costs summary table;
2. Example of annual fees and costs;
3. Additional explanation of fees and costs (as contained in the Fund's Reference Guide, page 7)

If you have any questions regarding the above, please contact the Investment Manager or the Responsible Entity using contact details provided in the PDS.

Sincerely,
The Trust Company (RE Services) Ltd

This communication has been issued by The Trust Company (RE Services) Ltd, ABN 45 003 278 831, AFSL 235 150 as responsible entity and the issuer of units in the Fund. It is general information only and is not intended to provide you with financial advice and has been prepared without taking into account your objectives, financial situation or needs. You should consider the PDS and Reference Guide. The PDS, Reference Guide and Target Market Determination are available free of charge from the investment manager of the Fund. If you require financial advice that takes into account your personal objectives, financial situation or needs, you should consult your licensed or authorised financial adviser. To the extent permitted by law, no liability is accepted for any loss or damage as a result of any reliance on this information. Neither the Investment Manager, Responsible Entity nor any of its related bodies corporate guarantees the performance of any fund or the return of an investor's capital.

Appendix 1

1. Fees and costs summary

The following “Fees and costs summary” table replaces the “Fees and costs summary” table in section 6 of the PDS:

Type of fee or cost	Amount ¹	How and when paid
Ongoing annual fees and costs		
Management fees and costs The fees and costs for managing your investment ²	0.90% pa of the net asset value of the Fund attributable to the Class	The management fees and costs are expressed as a percentage of the net asset value of the Fund attributable to the Class, accrue daily and are payable monthly in arrears from the assets of the Fund
Performance fees Amounts deducted from your investment in relation to the performance of the product	Nil	Not applicable
Transaction costs The costs incurred by the scheme when buying or selling assets	0.00% ³ p.a. of the net asset value of the Fund	The transaction costs (net of the buy-sell spread) are expressed as a percentage of the net asset value of the Fund attributable to the Class and are paid as and when they arise from the assets of the Fund

Type of fee or cost	Amount ¹	How and when paid
Member activity related fees and costs (fees for services or when your money moves in or out of the scheme) ¹		
Establishment fee The fee to open your investment	Nil	Not applicable
Contribution fee The fee on each amount contributed to your investment	Nil	Not applicable
Buy-sell spread An amount deducted from your investment representing costs incurred in transactions by the scheme	+/- 0.20% of the value of an application or withdrawal of Retail Units	The buy-sell spread is an additional cost but as it is included as an adjustment to the unit price of Retail Units and reflected in the application price and withdrawal price, it is not charged to you separately
Withdrawal fee The fee on each amount you take out of your investment	Nil	Not applicable
Exit fee The fee to close your investment	Nil	Not applicable
Switching fee The fee for changing investment options	Nil	Not applicable

¹ All figures disclosed include the net effect of GST and reduced input tax credits.

² Management fees and costs quoted are inclusive of GST and net of any RITCs at the prescribed rate, which is currently either 55% or 75% (depending on the nature of the fee or expense).

³ This figure is 0% as the amount recovered via the buy-sell spread charged on the issue and withdrawal of Retail Units for the financial year ending 30 June 2024 exceeded the transaction costs incurred on buying and selling Fund assets for that financial year. However, past performance is not a reliable indicator of future performance and this may not be reflective of future periods as it will depend on the level of applications and withdrawals received and the level of trading activity and transaction costs incurred within the Fund.

2. Example of annual fees and costs

The following “Example of annual fees and costs for the Fund” replaces the “Example of annual fees and costs for the Fund” in section 6 of the PDS:

The following table gives an example of how the ongoing fees and costs applicable to Retail Units in the Fund can affect your investment over a one (1) year period. You should use this table to compare this product with other products offered by managed investment schemes.

Example	Amount	Balance of \$50,000 with a contribution of \$5,000 during year
Contribution Fee	Nil	For every additional \$5,000 you put in, you will be charged \$0.
Plus Management fees and costs	0.90% ¹	And, for every \$50,000 you have in Retail Units you will be charged or have deducted from your investment \$450 each year.
Plus Performance fees	Nil	And, you will be charged or have deducted from your investment \$0 in performance fees each year.
Plus Transaction costs	0.00% ²	And, you will be charged or have deducted from your investment \$0 in transaction costs
Equals Cost of Retail Units		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of \$450. ³ What it costs you will depend on the investment option you choose and the fees you negotiate.

Please note that this is just an example. In practice, your investment balance will vary, as will related fees and costs.

- ¹ Management fees and costs quoted are inclusive of GST and net of any RITCs at the prescribed rate, which is currently either 55% or 75% (depending on the nature of the fee or expense).
- ² This figure is 0% as the amount recovered via the buy-sell spread charged on the issue and withdrawal of Retail Units for the financial year ending 30 June 2024 exceeded the transaction costs incurred on buying and selling Fund assets for that financial year.
- ³ Assumes the additional \$5,000 was invested at the end of the year.

3. Additional explanation on fees and costs

The following section replaces the “Transaction costs” information contained in section 4 of the Reference Guide (page 7):

Transaction costs

Transaction costs associated with dealing with the Fund’s assets may be recovered from the Fund.

Transaction costs may include brokerage, investment settlement fees and clearing costs when underlying assets are bought or sold and are paid from the Fund assets when incurred.

Transaction costs incurred as a result of unitholders coming into and going out of the Fund may be recovered by way of the buy-sell spread charged to investors.

Transaction costs not recovered through the buy-sell spread are additional costs to investors that reduce the assets of the Fund and are in turn reflected in the unit price of Retail Units. The transaction costs amount shown in the ‘Fees and costs summary’ in section 6 of the PDS are the transaction costs incurred for the 12 months to 30 June 2024 as a percentage of the NAV of the Fund attributable to this Class, after taking into account the costs recovered by way of the buy-sell spread and the figure of 0% reflects that, for the financial year ending 30 June 2024, amounts received by way of the buy-sell spread exceeded transaction costs.

For that financial year, the buy-sell spread recovered on the issue and withdrawal of Retail Units exceeded the transaction costs incurred on buying and selling Fund assets (i.e. a positive contribution to Fund assets) by an amount equivalent to 0.05% p.a. of the NAV of the Fund (being \$25 based on a \$50,000 holding).

However, past performance is not a reliable indicator of future performance and this may not be reflective of future periods as it will depend on the level of applications and withdrawals received and the level of trading activity and transaction costs within the Fund.

The gross transaction costs (before taking into account the costs recovered by way of the buy-sell spread) incurred for the 12 months to 30 June 2024 as a percentage of the NAV of the Fund attributable to this Class for that period is 0.08% p.a. and calculated to be \$40 based on a \$50,000 holding.

Transaction costs may vary for many reasons. As an example, brokerage varies as a result of the turnover in the underlying assets of the Fund as investment and market conditions change, which may affect the level of transaction costs not covered in the buy-sell spread.
